

## Creed Foodservice Three new Solomon Dual Temperature conversions

QUALITY CONVERSIONS THAT ARE A CREDIT TO OUR FLEET AND COMPLIMENT OUR IMAGE PERFECTLY. ”

Philip de Ternant, Creed

### The Customer

Creed Foodservice are one of the UK's leading independent Foodservice Wholesalers with over 25 years history.

Their continued success is based around ensuring the customer is always at the heart of their business. They supply and deliver a comprehensive product portfolio which includes Country Range and nationally branded products.

The range encompasses Meat and Poultry, Fresh, Frozen, Ambient and Non - Food products. Creed Foodservice pride themselves on offering a total food service solution to all their customers.

Solomon Sales Manager Colin Carter handing over the vans to Mr Philip de Ternant Operations Director of Creed Foodservice.

### Our Solution

Three New Solomon thermally insulated, lightweight, watertight & hygienic conversions. In each the floor is laminated in situ to form a one piece 'shower tray' impervious to moisture and seamless at floor level. Solomon's High pressure vacuum bonded precision interlocking panels form the sides, bulkhead and roof with high impact woven roving GRP to form a consistent and durable finish throughout the van.

The 80mm thick high density RTM Styrofoam's insulation thermal conductivity is extremely

efficient with a k factor of 0.025W/m-K. Aperture surrounds are superbly finished with purpose made watertight moulds. Internal wheel boxes are protected with aluminium as standard offering protection against wear and tear.

Fixed interior bulkhead divides the Frozen and Chilled compartments. A deep frozen Freezer slab side door gives access to the Front frozen compartment. Refrigeration was provided by a Carrier Xarios 350 Multi temp unit.

### The Benefits

Superb thermal efficiency with faster fridge pull down times and the resulting saving in fuel economy from the fridge working less often.

Clean hygienic interior with clear LED lighting providing only the best environment for Creed's products.
